

University Foundation Programme in Business Management

International Foundation Group

During your Foundation Programme you will develop the language, learning and communication skills that will prepare you for university study in the UK & Australia. In addition, you will study the following key academic subject modules, and the course is completed with a project.

Business Studies

An introduction to how different types of businesses operate in a global environment and respond to external factors. You will also learn different business theories and how to apply practical solutions in the real world.

Accounting

An understanding of the basic concepts of financial and managerial accounting is a valuable way of understanding how businesses work. You will use case studies to learn how to apply accounting principles to everyday business situations.

Economics

An introduction to key economic concepts, theories and institutions. You will explore current national and international economic issues, the problems they create and the effect on our everyday life
